

Looking for updates

The latest version of the program is on the following website:

<http://www.gratissoftwaresite.nl/testlab/Verbeteren+srt+files+ondertiteling>

The development of the program is determined by the reactions I get from users. These people I sent first an update. Only if they want, otherwise I delete them from my E-mail.

Are you user of the program, a reaction good or bad, you can help to make the program better.

E-mail address.

F.G.Goosens@Gmail.com
