

## Make an srt file by yourself

If you want to create a srt file, you must make visible the menu item "New ..." in the option menu.

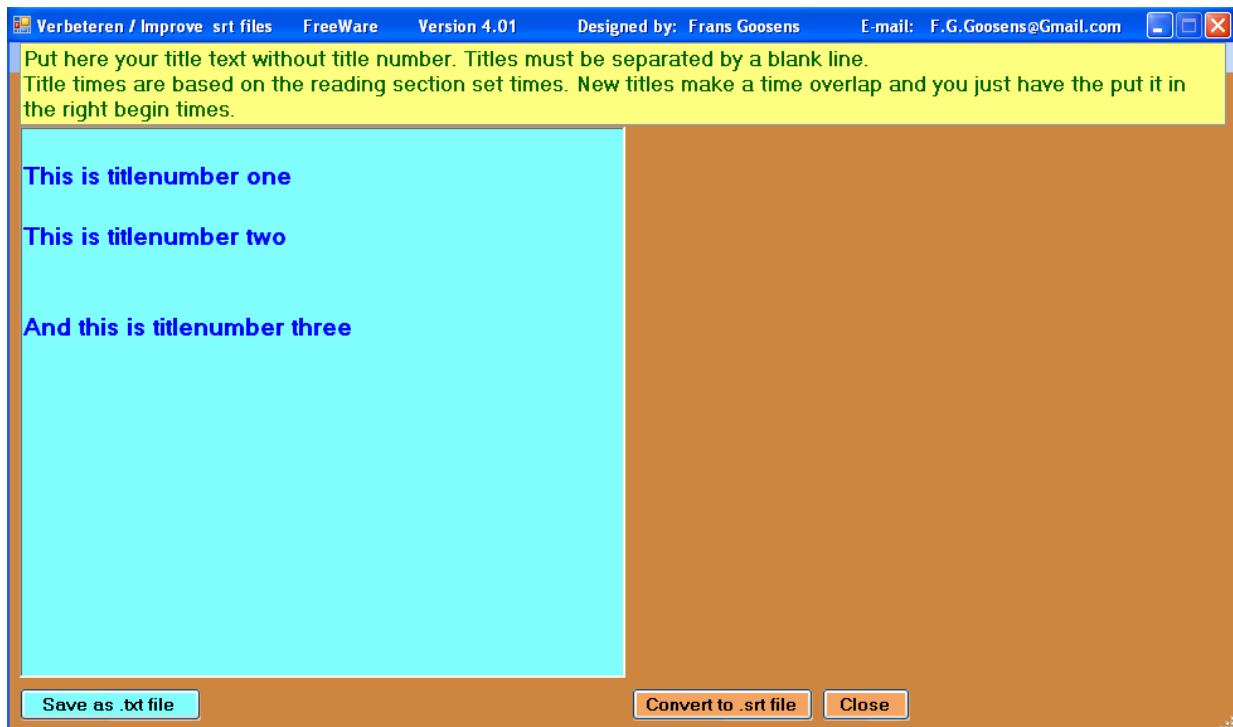

Activate this menu item New ... (under File menu)

The first thing you should do is to give the future file his name.

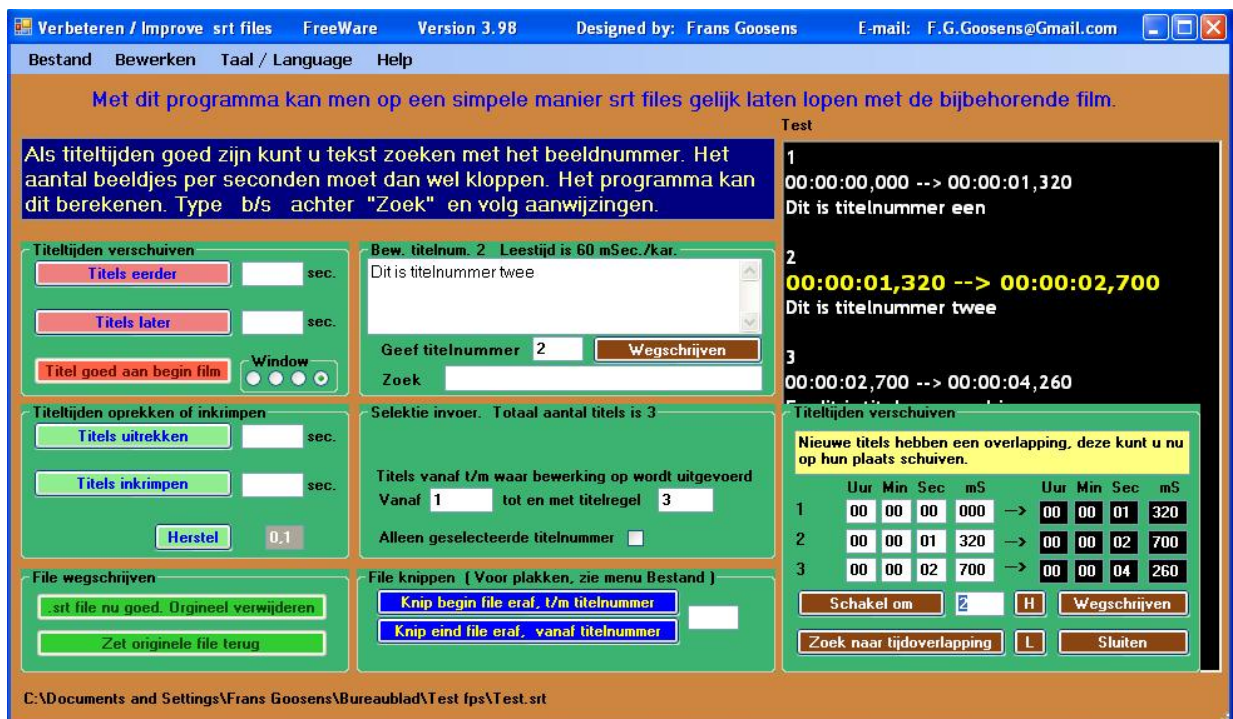

Below is a window where you fill in the context of the new file.

You may not use line numbers or time strings.

See picture below.

Now you make a srt file by clicking on corresponding button. (Convert to srt file)  
See picture below.

The title times are calculated based on the menu item "Adjust reading time". All title times are now lapping. These titles should only be put in place.

1  
00:00:00,000 --> 00:00:01,610  
This is titlenumber one

2  
**00:00:01,610 --> 00:00:03,220**  
This is titlenumber two

3  
00:00:03,220 --> 00:00:05,250  
This is titlenumber three

Shift time off titles

New titles have an overlap, they can now move into place.

	Hour	Min	Sec	mS	→	Hour	Min	Sec	mS
1	00	00	00	000	→	00	00	01	610
2	00	00	01	610	→	00	00	03	220
3	00	00	03	220	→	00	00	05	250

Search for time overlap L Close

Try to repair lapping times

Put with the mouse wheel title 1 to 1 sec.  
Put with the mouse wheel title 1 to 3 sec.  
Put with the mouse wheel title 1 to 5 sec.

1  
00:00:00,000 --> 00:00:01,610  
This is titlenumber one

2  
**00:00:01,610 --> 00:00:03,220**  
This is titlenumber two

3  
00:00:03,220 --> 00:00:05,250  
This is titlenumber three

Shift time off titles

New titles have an overlap, they can now move into place.

	Hour	Min	Sec	mS	→	Hour	Min	Sec	mS
1	00	00	1	0	→	00	00	01	610
2	00	00	3	0	→	00	00	03	220
3	00	00	5	0	→	00	00	05	250

Try to repair lapping times

Write this away by pressing the button "Write"  
Writing you must always do before you change title number.

1  
00:00:01,000 --> 00:00:02,610  
This is titlenumber one

2  
**00:00:03,000 --> 00:00:04,610**  
This is titlenumber two

3  
00:00:05,000 --> 00:00:07,030  
This is titlenumber three

Shift time off titles

There is no lapping off time.

	Hour	Min	Sec	mS	→	Hour	Min	Sec	mS
1	00	00	01	000	→	00	00	02	610
2	00	00	03	000	→	00	00	04	610
3	00	00	05	000	→	00	00	07	030

Try to repair lapping times

Now the srt file ready.  
This is but one example, important is you understand it.
